This section is *optional* and can be used to provide a summary of recommendations to the IT manager regarding which controls and/or compliance best practices Botium Toys needs to implement, based on the risk posed if not implemented in a timely manner.

Recommendations (optional):

Given the identified gaps and the risk assessment, here are some prioritized recommendations:

- 1. Implement Encryption:
 - o Encrypt all customer credit card information and other sensitive data.
- 2. Establish access controls:
 - Implement least privilege access and separation of duties to ensure only authorized personnel can access sensitive data.

- 3. Develop Disaster Recovery and Backup Plans:
 - Create and regularly update disaster recovery plans.
 - o Ensure critical data is backed up and can be restored in case of data loss.
- 4. Enhance Password Policies:
 - Update password policies to meet current standards (e.g., complexity, expiration).
 - o Implement a centralized password management system.
- 5. Deploy Intrusion Detection Systems (IDS):
 - Install and configure IDS to monitor network traffic for suspicious activities.
- 6. Compliance with PCI DSS and GDPR:
 - Ensure compliance with PCI DSS by securing the storage, processing, and transmission of credit card data.
 - Continue to enforce GDPR requirements, particularly around data classification and breach notification.
